

## HORIZONTAL MULTISTAGE PUMPS - 50Hz

### MH - SERIES

**C.R.I. PUMPS**  
Pumping trust. Worldwide.

## THE BEGINNING

of C.R.I., way back in 1961, was a resolute attempt to produce a few irrigation equipments using the limited facilities of an in-house foundry. Eventually the founder's dream was coming true as the small production unit he started kept growing rapidly. Now, after more than five eventful decades, it is an enormous, widely reputed organization, which produces more than 1800 varieties of perfectly engineered pumps and motors and sells its products in numerous countries spread across 6 continents.

## C.R.I. IS ONE AMONG

the few pioneers in the world to produce 100% stainless steel submersible pumps. Having achieved a record production capacity of over 2 million pumps per annum, today C.R.I. is rubbing its shoulders with the best brands in the world, with advanced technology and safety standards as its hallmarks.

## THE INFRASTRUCTURE

of C.R.I. is pretty comprehensive with state-of-the-art machineries and high potential in-house R&D recognised by the ministry of science and technology, Govt. of India - all within its own covered area of 300,000 square metres. The production environment is accredited with ISO 9001 & 14001 certifications and the products are CE, UR/UL, IEC, TSE & ISI certified. The R&D team always stays in tune with the changing scenario and seldom fails in coming up with outstanding solutions every time.

## NEEDLESS TO SAY,

behind this legendary growth lies the untiring, innovative, enthusiastic and dedicated team work. and, of course, a flawlessly maintained value system too. The name C.R.I. itself encapsulates the company's ethos: "Commitment, Reliability, Innovation".

# MH Series

C.R.I. Horizontal Multistage MH series pump is non-self priming, axial suction and vertical radial delivery type with threaded ports. All wetted components like impellers, diffusers and shaft of these pumps are made of corrosion resistant AISI stainless steel and designed to deliver the best possible hydraulic efficiency. The pump and motor are connected with a single drive shaft to eliminate any transmission loss. As the shaft, Impeller, diffusers and other vital components of the pump are made up of high grade stainless Steel AISI 304/316, these pumps can be used to pump high aggressive water and quite hygienic to use in drinking water systems too. Wear resistant bearings ensure better hydraulic efficiency and noiseless operation and the pump casing & brackets are made of high quality cast iron. 'O' rings and gaskets prevent leakage at the intermediate casing during high pressure. Mechanical seals of these pumps are made of ceramic and carbon graphite to ensure reliability and easy replacement. These pumps are reliable, easy to install and designed for high end user comfort.

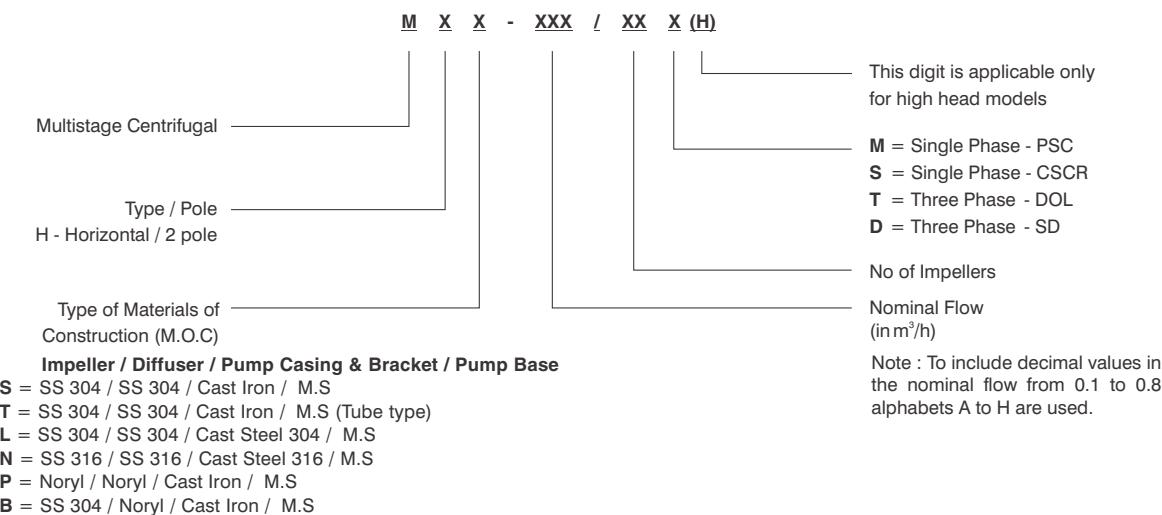

C.R.I. Horizontal Multistage centrifugal pumps are powered by a Totally Enclosed Fan Cooled, A.C. induction motor, suitable for continuous duty. Motor stator is made of low watt loss steel laminations assembled under pressure and rigidly locked in the frame. Dynamically balanced rotor ensures vibration and noise free operation and the varnished impregnated windings made of enameled copper wire offer excellent resistance.

Shaft of ample size made of quality steel and precisely ground is used for transmitting the rated Horsepower. Construction of motor frames and usage of quality materials result in high performance and low temperature rise thereby increasing the life cycle of the motor. Thermal over load protector (motor protector) is incorporated in single phase motors. These pumps require an adequate motor protection control panel.

**Applications :** | Residential & Industrial Pressure Boosting | Small farms | Washing systems | Industrial water supply | HVAC | Reverse Osmosis systems | Food processing industries | Golf course.

## MODEL IDENTIFICATION CODE

**MH SERIES - 50 Hz (TYPE - S)**

**TECHNICAL DATA**

Power Range	: 0.22 to 2.2kW
Speed	: 2900 rpm
Degree of protection	: IP 54
Insulation class	: B (Optional F)
Versions	: Single Phase 220 / 240V, 50Hz, A.C. Supply (Permanent Split Capacitor-PSC) Incorporated with thermal protector. Three Phase 380 / 415V
Sealing	: Mechanical seal
Direction of rotation	: Counter clockwise viewed from driving end
Type of Duty	: S1 (continuous)

Nom. Suc. x Del. Size : 1" x 1" ; 1½" x 1¼", 1½" x 1½"

**MATERIALS OF CONSTRUCTION**

Pump Casing & Bracket	S.S. 304 / Cast Iron
Impeller	S.S. 304
Diffuser	S.S. 304
Motor Frame	Aluminum
Shaft	S.S. 410
Sealing	Mechanical Seal
Base Plate	Mild Steel

**CHARACTERISTICS OF PUMPED LIQUIDS**

a) Temperature	90°C (max.)
b) Permissible amount of sand	25 gm / m³ (max.)
c) Chlorine ion density	500 ppm (max.)
d) Allowable solids	3000 ppm (max.)
e) Specific gravity	1.004 (max.)
f) Hardness (Drinking water)	300 (max.)
g) Viscosity	$1.75 \times 10^{-6} \text{m}^2 / \text{Sec.}$ (max.)
h) Turbidity	50 ppm silica scale (max.)
i) pH	6.5 to 8.5

**OPERATING LIMITS**

Maximum Liquid Temperature : 90° C

Maximum Ambient Temperature : 40° C

Maximum Operating Pressure : 0.55 Mpa (5.5 bar)

Max. Operating Pressure	1 mpa (10bar)	0.6 mpa (6bar)
MH-2E & 5	0°C to 40°C	41°C to 90°C
MH-8 & 12	0°C to 55°C	56°C to 90°C

Min. Inlet pressure : As per NPSH Curve + Safety Margin 1metre.

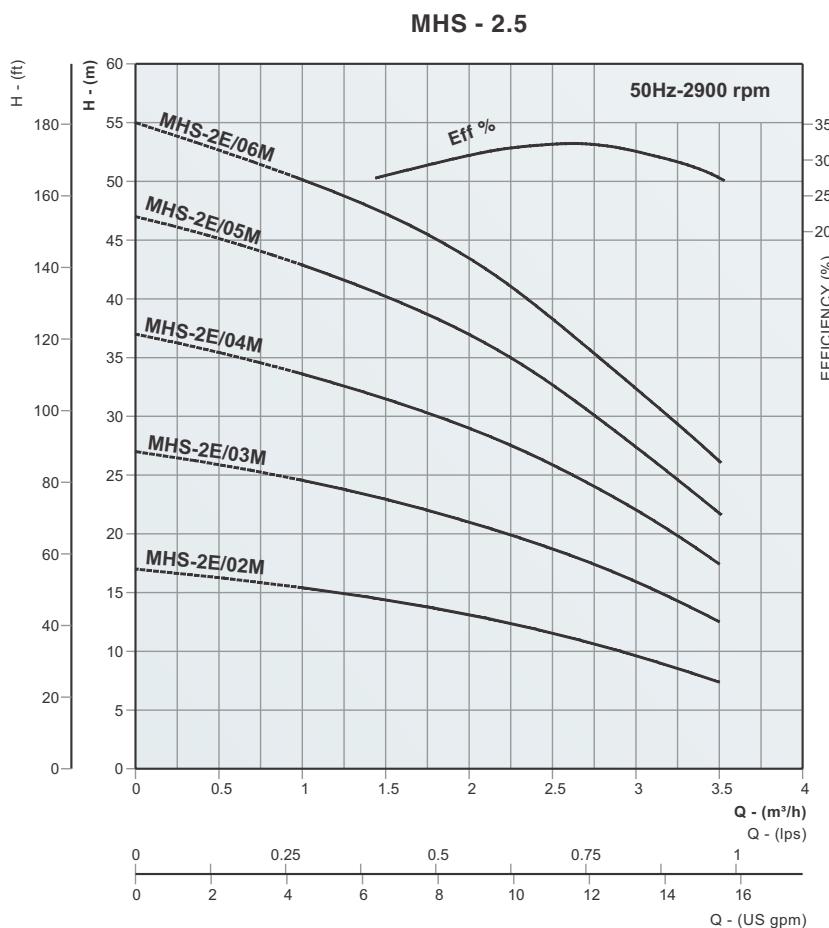

Max. Inlet pressure : Limited by max. operating pressure.

**PERFORMANCE CURVE CONDITIONS**

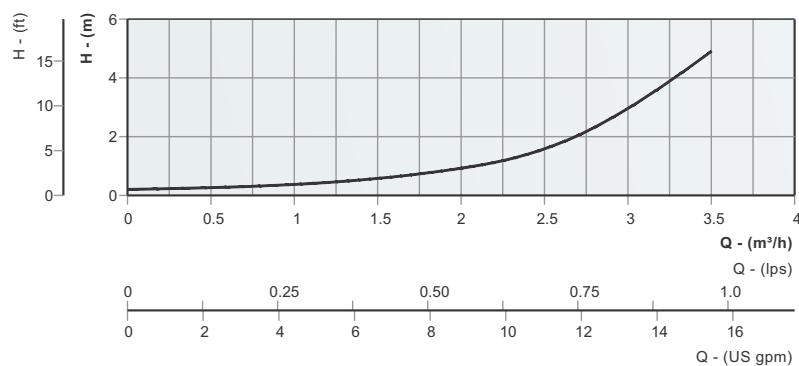

- The conditions below apply to the curves shown on the following pages.
- Curve tolerance are according to ISO 9906, Grade 2B.
- The performance are taken at rated voltage & speed that are only indicative.
- Actual discharge depends on availability of water in well / tank, height of water column from the suction pipe end.
- The measurements were made with airless water at 20°C. When pumping liquids with a density higher than of water, motors with correspondingly higher outputs must be used.
- The bold curves indicate the recommended performance range.
- Pipe fiction losses have not been included in the performance curves & performance tables.

**HORIZONTAL MULTISTAGE PUMPS**

**MH SERIES - 50 Hz (TYPE - S)**

## MH Series - Type B

C.R.I. MH series pumps are designed to deliver the best possible hydraulic efficiency. The pump and the motor are connected with a single shaft to eliminate any transmission loss. Wear resistant bearings ensure better hydraulic efficiency and noiseless operation and the pump casing & bracket are made of high quality cast-iron. Dynamically balanced rotor ensure vibration and noise free operation. Shaft of ample size made of quality steel and precisely ground is used for transmitting the rated horsepower. Thermal over load protector is incorporated in single phase motors. These pumps are reliable, easy to install and high end user comfort.

### TECHNICAL DATA

Power range	: 0.25 kW to 2.2 kW
Speed	: 2900rpm
Version	: Single Phase 230V, 50Hz A.C Supply (0.25-1.8kW), Three Phase 380V, 50Hz A.C Supply (0.25-2.2kW).
Degree of protection	: IP 55
Insulation class	: F
Type of duty	: S1 (Continuous)
Number of pole	: 2 poles
Nominal Suc. x Del. size : 1" x 1", 1¼" x 1¼"	

### MATERIALS OF CONSTRUCTION

Impeller	SS 304
Shaft	SS 420
Diffuser	Noryl
Pump body	SS 304
Pump bracket	Cast iron/Casted S.S
Motor frame	Aluminium
Mechanical seal	Carbon and ceramic

**Applications :** Residential & Industrial Pressure Boosting | Small farms |  
Washing systems | Industrial water supply | HVAC | Reverse Osmosis  
systems | Food processing industries | Golf course.

### OPERATING LIMITS

Maximum Liquid Temperature : 90° C  
Maximum Ambient Temperature : 40° C  
Maximum Operating Pressure : 0.55 Mpa (5.5 bar)

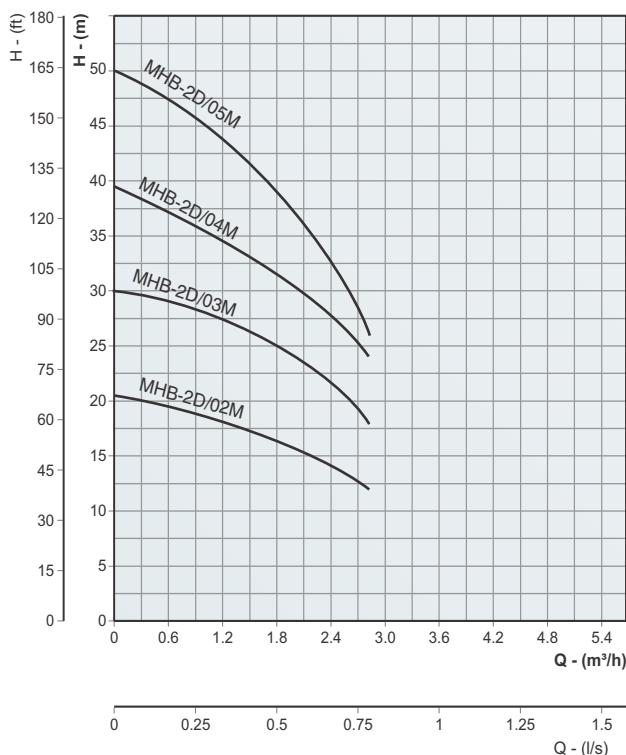

**Note :** Appropriate size of foot-valve to be adopted in suction pipe for better suction lift.

### TEMPERATURE

To Convert From	To	Use Formula
Temperature Celsius, tc	Temperature Kelvin, tk	$K = tc + 273.15$
Temperature Fahrenheit, tf	Temperature Kelvin, tk	$K = (tf + 459.67) / 1.8$
Temperature Celsius, tc	Temperature Fahrenheit, tf	$F = 1.8 tc + 32$
Temperature Fahrenheit, tf	Temperature Celsius, tc	$C = (tf - 32) / 1.8$
Temperature Kelvin, tk	Temperature Celsius, tc	$C = tk - 273.15$
Temperature Kelvin, tk	Temperature Fahrenheit, tf	$F = 1.8tk - 459.67$

## HORIZONTAL MULTISTAGE PUMPS

## W I N N I N G   W A Y S

When you have a good thing going it is quite  
in the fitting of things that recognitions come  
our way. Several prestigious awards, which  
decorate our shelf, say it all. These rewards  
not only acknowledge our position as a leader  
in the water pump industry but also serve as  
reminders about what the customer expects  
from a winner. And we, as ever, have our ears  
perfectly tuned to customer expectations.
